## Forms Logic and Arakyta Partner for End-to-End Business Solutions for Broker Dealers and Financial Firms

**WHEATON, IL and Toledo, OH (November 20, 2019)** – Forms Logic and Arakyta have partnered to create a service solution for financial businesses seeking integrated approval workflows and IT solutions. This partnership will provide companies with a solution for managing complex electronic paperwork processes from Forms Logic, with an integrated vendor experienced in ensuring comprehensive regulatory requirements are met for IT solutions from Arakyta.

“We have found a partner with the same vision for designing solutions to fit the needs of the client’s business,” said Rick Burgess, CEO of Forms Logic. “Their experience managing the complexities required for IT solutions in financial services makes them the ideal partner to help us ensure our clients are getting a full-service solution with workflow management from Forms Logic, and IT management from Arakyta.”

Forms Logic has several client projects in progress, specifically for the financial industries, which will allow financial advisors to focus on building relationships with their end clients instead of filling out paperwork. Using electronic paperwork approvals saves significant time and money, especially when clients and advisors are not always in the same physical location.

Arakyta has been a strategic consultant for businesses seeking IT solutions to help save time, energy and, money. They are experts in delivering business-driven technologies and solutions that help clients gain competitive advantages by making their businesses more responsive to market opportunities and threats. Offering everything from data storage, to SharePoint management, to single sign-on, they can help customize the solution needed for any business.

“Customized business solutions are our strength. Forms Logic embodies the same principles in managing their solutions to the customer needs,” said Dennis Schroder, CEO and founder of Arakyta. “This partnership is a natural extension of our business model – providing consulting solutions and technical expertise in order to let the client focus first on their business.”

###

### **About Forms Logic**

Forms Logic Software is a cloud-based system for companies looking to integrate single data entry across multiple forms. We recognize the challenges inherent in managing paperwork that require inputting the same data among multiple forms. Using our software, companies can easily complete highly regulated industry paperwork, creating a friendly client onboarding experience.
